**PRODUCT DESCRIPTION**

Brand-Rex Cat6Plus patch cords enable you to get the optimum performance from your cabling system.  Our factory made and tested patch cords offer you guaranteed quality.  The new Cat6Plus blade server patch cord now incorporates a new moulded style boot and anti-snag latch connector.  The new connector incorporates a fully surrounded boot which improves bend relief potential allowing for an increased bending force to be applied to the plug.  The new design also incorporates an anti-snagging feature.  All patch cords are supplied with boots and ID tag.
